Dear Parents/ Guardians,

We are excited to welcome you to Academia Antonia Alonso. La Academia is a dual language elementary school in Delaware with a focus on nurturing bilingual, bi-literate and multicultural children. Academic instruction takes place in both English and Spanish. Students spend half of their instructional day engaged in academic instruction in Spanish and the other half takes place in English. Students learn to think critically and take action in their classrooms and communities through project- based learning and by engaging in real life issues. We expect all students to model their behavior after our guiding principles. U.N.I.D.O.S. U: Unity N: Never give up I: Integrity D: Discovery O: Ownership S: Success. As a school that uses a compassionate approach to our students and families, we will work with all to ensure success. It is important that the family and school work as a team.

It is important that you and your child(ren) understand and abide by the policies and guidelines set forth in the Student Code of Conduct. Maintaining a safe, secure, and nurturing school environment is our duty, and adherence to the standards of behavior that have been established will help us achieve that for all of our students.
